Class Descriptions

CIRCL Mobility™

RELEASE. RESTORE. RENEW. Based on the science of functional movement, CIRCL Mobility™ focuses on flexibility, breathwork, and mobility exercises to help you move better, longer. Set to a soundtrack of healing tones + sound frequencies to help your mind focus and release stress.

CIRCUIT

This total body workout incorporates strength and cardio training to challenge you through intervals or stations. Intervals are typically one-minute of work, with 30 seconds of rest.

DUMBBELLS 101

Head-to-toe strength training with dumbbells. All muscle groups are incorporated. Warm up before and stretch throughout. Class also works on balance, coordination, and flexibility.

PILATES

Pilates is a system of repetitive exercises performed on a mat or other equipment to promote strength, stability, and flexibility. Pilates exercises develop the body through muscular effort that stems from the core. The technique cultivates awareness of the body to support everyday movements that are efficient and graceful.

CLASSIC

Increase muscle strength and range of movement, and improve activities for daily living. You'll have a chair for seated exercises and standing support. Your instructor can modify the exercises for your fitness level.

STABILITY

Get stronger and improve your balance through exercises that strengthen the ankle, knee and hip joints all in a fun and social setting. This class is designed specifically for fall prevention.

TAI CHI

A moving meditation that involves a series of slow gentle movements and physical postures, a meditative state of mind, and controlled breathing.

TOTAL BODY

Total Body is a strength conditioning class designed to target all major muscle groups while challenging your body using different equipment and/or bodyweight to perform compound exercises to improve your overall strength and muscular endurance.

Specialty Class

ROCK STEADY BOXING

Rock Steady Boxing is a health and wellness program designed for people with Parkinson's Disease. Class is based on a foundation of non-contact boxing, and is very effective for improving all of the symptoms associated with Parkinson's Disease. Two classes are offered to accommodate participants experiencing different stages of the disease.

This class is NOT included with Group Exercise membership.
